PULLMAN TIMI AMA SARDEGNA

THE DESTINATION

White sand lapped by turquoise waters, waving palms under sunny skies... Neither dream nor cliché, this is Pullman Timi Ama Sardegna.

White sand lapped by turquoise waters, waving palms under sunny skies... Neither dream nor cliché, this is Pullman Timi Ama Sardegna...

From the bay, an Aragonese tower watches over 11 sprawling hectares of natural park. A haven for local wildlife among Mediterranean plants and flowers. Little wonder that hordes of pink flamingos flock to this sunny corner of paradise each year and settle in the lagoon opposite the hotel.

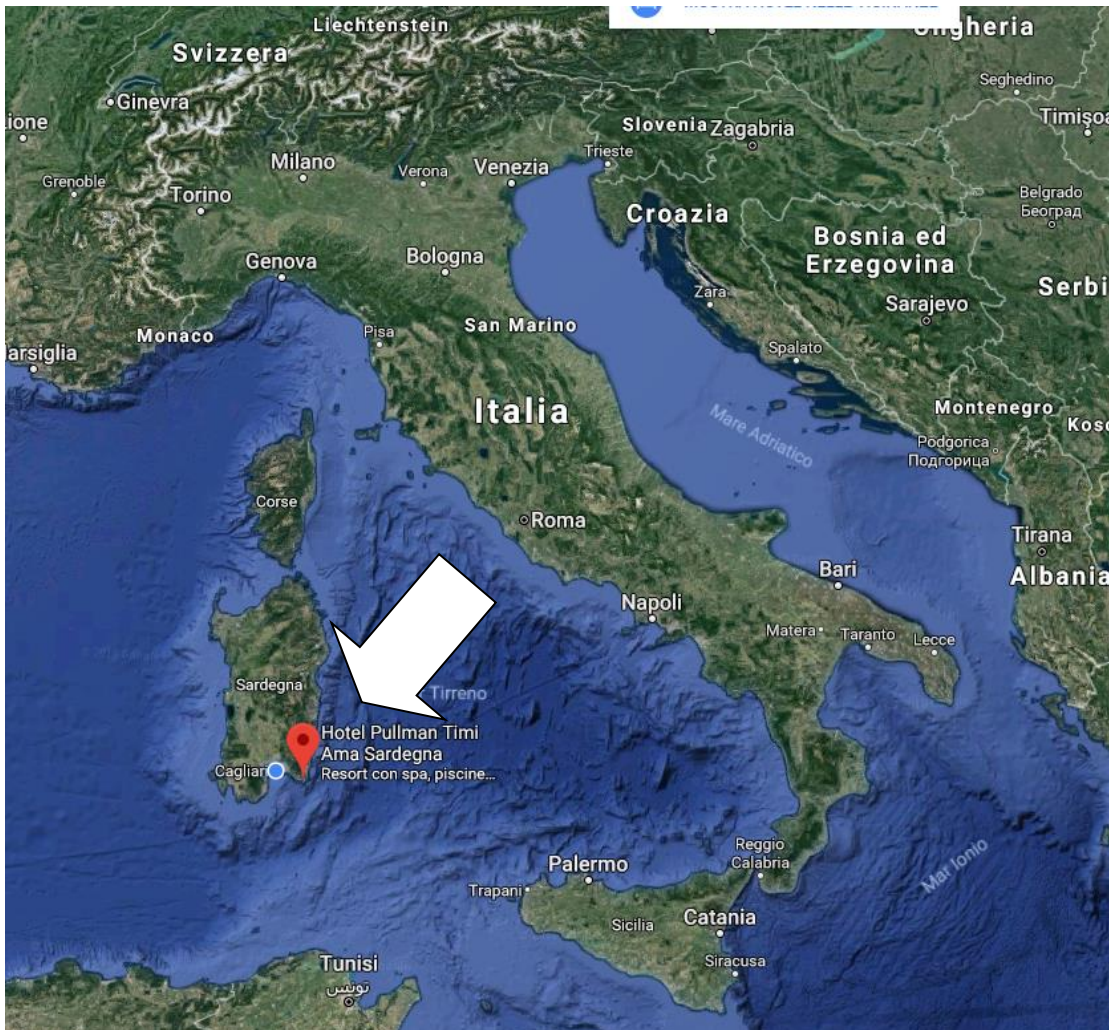

Swimming, golfing, sightseeing - whatever brought you to the 5-star Pullman Timi Ama Sardegna, you're in the right place. Rooms bathed in Mediterranean light overlook the bay or hotel grounds. White-sand beaches are just outside. Further away but still within easy reach you'll find wineries, archeological sites, and lots of unspoiled nature.

The Pullman Timi Ama Sardegna hotel lies on the south-east coast of the island, within the Capo Carbonara marine reserve. Spend your days as you choose, be it on the beach, in the nature reserve or on the neighboring golf course.

EXTRA ACTIVITY (OPTIONAL)

Minimum 8 people €122,00 pp vat incl.

Excursion 4x4

Sample itinerary in Villasimius - Castiadas

Our guides will meet and greet the group outside the hotel. Participants will get in our four-wheel-drive vehicles and the excursion will begin.

First stop will be a visit to the pond called 'Notteri', where it is possible to see flamingoes, who have found the permanent and natural shelter there.

The visit will proceed to Porto Giunco and Capo Carbonara, driving through a pine wood; here it will be possible to visit an ancient granite quarry and gaze at the islands 'dei Cavoli' and 'Serpentara', on which there are two towers dating back to the period of the Spanish domination in Sardinia.

The excursion will then move on through Santo Stefano and Fortezza Vecchia. The ride will continue going along the coast until we reach the beautiful beaches Punta Molentis, Cala Pira e Cala Sinzias, where it will be possible to swim in the sea. The excursion will then move inland and before reaching the Sette Fratelli Park, it will be possible to see the former penal colony in Castiadas. The last stage of the trip is Solanas, from where it is possible to see the whole Gulf of Cagliari. Participants will then be taken back to their hotel.

The excursion will take place along medium difficulty unmade roads and provincial roads. It will allow participants to have a comprehensive vision of the surrounding territory, its history and the social customs of its population. Cars used are Land Rover Defender, driven by expert drivers with uniform. Water will be provided to all participants.

Minimum 12 people €122,00 pp vat incl.

Excursion Rib Boats

Sample itinerary in Villasimius - Castiadas

Right after the departure, with the embarkation directly on the beach in front of the hotel or from Villasimius marina, the first stop will be on the Cavoli Island, situated a bit less than 1 km from the extreme South-eastern point of Sardinia. In this area, populated just by different kinds of birds and mammals, there is a Spanish tower built in 1591 and incorporated in 1856 in the actual lighthouse structure. Here, depending on the weather, you might also be able to admire the Shipwrecked Virgin statue, laid down at the bottom of the sea, about 10 metres deep, to recall all the sea victims.

After the Cavoli island, you will continue towards Carbonara Cape where you can visit the ruins of the Usai granite quarry and you will continue on with the small marina to reach the marvellous Punta Molentis beach passing through the white fine sand of Porto Giunco, Timi Ami and Simius, where on the crystal water there will be a stop over for a swim. Going along the coast, you can admire also the Prozeddus beach, Sa Galatticia and Is Omini Mottus bays and Cala Pira beach.

Finally, you will circumnavigate the Serpentara Island, very interesting for its vegetation and sea fauna, also for the San Luigi Spanish tower built in 1639. This will end the tour going back at the hotel.

Rib boats are about 7,5 m with motors between 200 and 250 CV qualified to navigate in deep water, each with a capability of about 10 persons; they have safety equipment, comfortable furnishing, sun deck, driving console, small awning for shade, ladder for going back up. Drivers are professional skipper with nautical license. On board of each boat, there will be mineral water for all and if needed we can manage the delivery of the beach towels provided by the hotel. Our staff on land will manage onboard and off board operations in safety, connected via radio with skippers and adapting the itinerary and embarking ports if required by the weather.
