## Presentation 3<sup>rd</sup> World Congress of Ian Donald Schools

*Dear colleagues and friends,*

*At this time of increasing globalization it is evident that no human contribution to our globalized world is more fitting than the endeavours in the fields of science and medicine. This is an immense privilege but equally so a considerable responsibility for the development of humanity.*

*The time for global education is now. This Congress brings together leading and dedicated intellectuals who have made the dream of global education a reality. Biennial World Congresses following the other two held in Dubrovnik (2011 and 2013), are an excellent opportunity for us, more than 100 Ian Donald School Directors from all over the world to meet and discuss current issues of advanced ultrasound and above all to further develop friendly relationships.*

*There is no better place in the world than lovely Sardinia with its incomparable combination of natural beauty and intriguing history. Come and enjoy this uniquely beautiful island and take part in the stimulating, pleasurable and rich programme of the 3<sup>rd</sup> World Congress of Ian Donald Schools.*

*We can assure you that your stay will be unforgettable and an experience you will always treasure and we are looking forward to give you our warm welcome on the occasion of this high-impact scientific event.*

*On behalf of the Organizing Committee,*

**Giovanni Monni**  
*Ian Donald School Europe Director*

**Asim Kurjak and Frank Chervenak**  
*Ian Donald School World Directors*

### **Presentation SIEOG Course** **(Italian Society of Ultrasound in Obstetrics and Gynecology)**

*Dear colleagues and friends,*

*It is a great privilege for me to organize this Course on Screening, Fetal Heart and Placenta during the 3<sup>rd</sup> World Congress of Ian Donald Schools.*

*Many of the most qualified Italian colleagues will be present, as well as some of the best experts in the world in the field of Ultrasound in Obstetrics and Gynecology.*

*This is a sure guarantee for the importance and the success of this SIEOG Course which, I hope, will be of great didactic use to all participants.*

**Giuseppe Rizzo**  
*SIEOG President*

In preparation to welcome the new Ian Donald Schools  
in Latvia, Siberia, Estonia, Lithuania, Canary Island and Cuba

## Objectives of the School

### **to promote:**

- the science and art of ultrasound scanning
- research and education in the field of medical ultrasound
- continuous training in ultrasound
- and facilitate the dissemination of information, especially by scientific publications, including Donald School Journal of Ultrasound in Obstetrics and Gynecology

### **to provide:**

- expert advice to those entering the field of ultrasound

### **to increase:**

- knowledge of methodology for implementing recent ultrasound advances

### **to contribute:**

- to the improvement of teaching standards by the introduction of computer technology and devices for telemedicine

The Ian Donald School is designed to address the needs of a clinician who has some experience in diagnostic ultrasound, but needs additional knowledge and practice in recent sonographic developments in both obstetrics and gynecology.
